

# Watch your home protect safe danger security

## Residential and Commercial Security Services

### Why Gulf Coast Public Safety?

Gulf Coast Public Safety is the go-to company for all of your Government, Residential and Commercial security services. We are a Contract Security provider with the expertise to deliver superior security solutions, vulnerability assessments and training. We understand that a one-size-fits-all approach will not work when it comes to providing our clients effective security services. Therefore, we developed a customized approach specific to each client's wants and needs.

### Differentiators

- Our security team is comprised of highly trained former law enforcement and military personnel.
- We are the subject matter experts in security management, training, and anti-terrorism / Force Protection measures.
- Decades of combined experience providing security solutions for every need.
- We are licensed, bonded, insured and give each client a hold harmless agreement against all Civil Lawsuits so that you do not get brought into a Lawsuit for what our Contract Security teams do.

### Residential

- Residential Protection
- Apartment Complex protection

### Commercial

- Uniformed Roving Patrols
- FEMA Disaster response
- Executive/VIP Protection
- High Value CMV protection
- Anti-Piracy/Maritime protection
- Government Asset Protection
- Construction Site protection
- Office building protection
- Industry and Manufacturing protection
- Distribution Centers / Store protection
- Apartment Complex protection
- Event Security protection
- Campus/School protection
- Investigative Services for all accounts
